

## BVD Trojan restrictions - Procedures for individual animal checks for removal of individual BVDFEM status

The herd owner is to provide the information and documentation outlined in the table below and send it by e-mail to AHWNI at [info@animalhealthni.com](mailto:info@animalhealthni.com).

AHWNI will assess the information provided and make a recommendation to DAERA.

### Option 1 - Blood sample, taken within the previous 12 months and before the insemination preceding its current gestation, has a Positive BVD antibody result.

Herd owner to complete:		AHWNI use:	
Animal Group (Herd) Number		Date of sampling within last 12 months	Yes/ No
Animal ID(s) (Continue overleaf if necessary)			
Date of application for removal of status			
Date of sampling			
Laboratory name		Approved laboratory	Yes/ No
Antibody result(s) (Laboratory report provided)		Positive result (Laboratory report provided)	Yes/ No (Yes/ No)
Date of insemination for current pregnancy (Documentation provided) OR Pregnancy diagnosis date and stage of pregnancy* (Signed Veterinary Surgeon Declaration provided)		Within last 12 months and after date of sampling (Signed Veterinary Surgeon Declaration provided)	Yes/ No (Yes/ No)
Date of test		Within last 12 months AND before the insemination date/ calculated date of service	Yes/ No

\*Note: Milk progesterone testing or other blood/milk pregnancy tests (eg pregnancy associated glycoproteins) are not acceptable, as the date of insemination cannot be determined from them reliably.

**Option 2 - Blood sample, taken at least 21 days after the day of removal of the last BVDP, has a Negative BVD antibody result.**

AHWNI will consider any negative antibody status to be valid for 4 months from the date of testing in the absence of further disclosures of virus positive animals.

Herd owner to complete:		AHWNI use:	
Animal Group (Herd) Number		Date of sampling within last 12 months	Yes/ No
Animal ID(s) (continue overleaf if necessary)			
Date of application for removal of status			
Date of sampling			
Laboratory name		Approved laboratory	Yes/ No
Antibody result(s) (Laboratory report provided)		Negative result (Laboratory report provided)	Yes/ No (Yes/No)
Date of last BVDP removal		At least 21 days after date of last BVDP removal	Yes/ No
Date of test
