

You are invited to attend:

CROSS-BORDER BVD MEETING

AHI and AHWNI are hosting a major public meeting on the all-island fight against BVD.

While significant progress has been made towards eradication, BVD remains a threat to farms, with higher 2025 and 2026 incidence rates identified in Armagh, Fermanagh and Monaghan.

The meeting will feature farm representatives, vets and programme leaders, with updates on the current BVD situation, expert advice and an open Q&A discussion.

Tuesday 26th May 2026
8:00 PM
